Pay \$20.00 - \$28.00 per hour

Benefits

- Health insurance
- Paid time off
- Dental insurance
- Life insurance
- Retirement plan

Job description

ECS Engineers provides professional engineering and surveying services to public and private clients throughout Wyoming. Our projects range throughout the land development, transportation, and public utilities sectors. We are rapidly growing and looking to expand our talent pool with motivated individuals.

Qualifications:

- High school diploma or equivalent, pursuing or achieved higher education in engineering/construction field a plus
- Familiarity with Civil3D
- Familiarity with civil construction and engineering preferred
- Willingness to learn from design/lead engineers
- Valid driver's license
- Ability to stand, walk, kneel for long periods of time

Responsibilities:

- Act as liaison between design engineer(s), owners and contractors on varying construction projects
- Perform construction observation and inspection activities and maintain documentation on multiple ongoing civil construction projects
- Perform basic Civil3D drafting tasks and aid in construction plan production with guidance from design engineer(s) and project manager
- Secondary tasks may include performing or aiding in basic engineering calculations and tasks with guidance

ECS offers flexible working hours and a casual office environment. Working time may be split between time in the field and the office.
